

Opennet Hospitality Systems Presents...

The Aloha Restaurant Reservations Management Software

Whether you are running a single restaurant or a resort with multiple restaurants, Table reservations is exactly what you need to effectively manage the reservation process while capturing everything important about your customer's profile.

RESERVATIONS

Take reservations in multiple locations in a restaurant at the same time. You no longer need to look for the book, or take notes on a napkin. Speed the process, eliminate guesswork and reduce mistakes, control tables and availability times.

CUSTOMER RECOGNITION

Provides immediate guest history, enhancing guest recognition. You can display special characteristics, make special requests for the reservation and keep notes on the guest that appear each time a reservation is made.

WAIT LIST MANAGEMENT

To manage a wait list, simply enter names on computer wait list. Eliminate the paper list, conveying a sense of organization and efficiency to your guests. Speeds up the process of managing names. Keep guests from leaving for another restaurant.

MARKETING REPORTS

The reporting function gives you the ability to print several very valuable reports for guest retention. You can also manage reservations, confirmations, special requests, etc. Guest information can be exported for label making, for marketing mailers.
